Re: Oregon Public Broadcasting
K219FJ (FX), Gleneden Beach, Oregon
Facility Identification Number: 50615
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed February 2, 2012, on behalf of Oregon Public Broadcasting ("OPB"). OPB requests further extension of the special temporary authority ("STA") granted on May 12, 2009, to operate FM Translator K219FJ with temporary facilities.¹ In support of the request, OPB states that it has filed an application for construction permit for a new, permanent site.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that substantial progress has been made during the most recent STA period toward restoration of licensed operation. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station K219FJ may continue to operate with the following facilities:

¹ K219FJ is licensed for operation on Channel 219D (91.7 MHz) with effective radiated power of 0.205 kilowatt (H&V) and antenna height above average terrain of 20 meters.

Geographic coordinates: 44° 53' 8" N, 124° 0' 51" W (NAD 1927)
Channel 219 (91.7 MHz)
Effective radiated power: 0.012 kilowatt (H&V)
Antenna height:
 above ground: 9 meters
 above mean sea level: 96 meters
 Above average terrain: 5 meters

OPB must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **May 13, 2013**.

Sincerely,

Charles N. Miller, Engineer
