**ATTENTION: FM Branch, Mass Media Bureau**  
**REFERENCE: Resumption of Normal Operations/BSTA-20121023AAP**  
**STATION: KKJA Redmond, Oregon, Facility ID 92285**

Dear Mr. Miller:

Calvary Chapel of Twin Falls, Inc., Licensee of KKJA (FM) Redmond, Oregon, Facility ID 92285, hereby notifies the Commission that licensed operations have been restored to full power and the transmitter is now operating properly. All appropriate steps to insure that workers, who climb this tower will not be exposed to levels of non ionizing radiation, will be taken. These steps include a reduction in power or cessation of operation, as appropriate, when work becomes necessary on the tower in the area where the power density levels are in excess of the permitted level for controlled exposure.

Calvary Chapel of Twin Falls, Inc. respectfully requests that BSTA-20121023AAP, granted October 24, 2012, be dismissed (copy attached). If you have any questions concerning this letter, please contact me at (208)733-3133 ext 206, or by email at [loism@csnradio.com](mailto:loism@csnradio.com). Thank you.

Sincerely,

Lois Mills  
Application Technician  
Calvary Chapel of Twin Falls, Inc.

Re: Calvary Chapel of Twin Falls, Inc.  
KKJA(FM), Redmond, Oregon  
Facility Identification Number: 92285  
Special Temporary Authority

Dear Ms. Mills:

This is in reference to the request filed October 23, 2012, on behalf of Calvary Chapel of Twin Falls, Inc. ("CCTF"). CCTF requests special temporary authority ("STA") to operate Station KKJA with reduced power.<sup>1</sup> In support of the request, CCTF states that one of the power amplifier modules in the station's transmitter died. CCTF states that the part for repair is on order and that it estimates that between 15 and 30 days will be required to complete the repairs.

Section 73.1560(d), which governs reduced power operation, states:

In the event it becomes technically impossible to operate at authorized power, a broadcast station may operate at reduced power for a period of not more than 30 days without specific authority from the FCC. If operation at reduced power will exceed 10 consecutive days, notification must be made to the FCC in Washington, DC, Attention: Audio Division (radio) or Video Division (television), Media Bureau, not later than the 10th day of the lower power operation. In the event that normal power is restored within the 30 day period, the licensee must notify the FCC of the date that normal operation was restored. If causes beyond the control of the licensee prevent restoration of the authorized power within 30 days, a request for Special Temporary Authority (see Section 73.1635) must be made to the FCC in Washington, DC for additional time as may be necessary.

Our review indicates that the request complies with Section 73.1560(d).

Accordingly, the request for STA IS HEREBY GRANTED. Station KKJA may operate with reduced power. CCTF must notify the Commission when licensed operation is restored. CCTF must use whatever means are necessary to protect workers and the public from exposure to radio

---

<sup>1</sup> KKJA is licensed for operation on Channel 210C2 (89.9 MHz) with effective radiated power of 0.75 kilowatt (H&V) and antenna height above average terrain of 676 meters.

frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **January 24, 2013**.

**STA Advisory:** Section 309(f) of the Communications Act of 1934, as amended, authorizes the Commission to grant STA in cases of "extraordinary circumstances requiring temporary authorizations in the public interest and when delay in the institution of the temporary operations would seriously prejudice the public interest." However, Section 309(f) is not a means by which a licensee/permittee may circumvent established processing procedures which require the filing of an application, nor is it a means by which a broadcaster may enhance his facility or make operation more convenient for the broadcaster. Stations operating with less than licensed facilities under temporary authorities can be viewed as receiving the benefit of a larger protection area than that in which they are currently providing service.

Accordingly, Special Temporary Authorities by nature are to be temporary and are not intended for extended use. Licensees of stations operating under temporary authorities are reminded that timely restoration of permanent facilities is the responsibility of the licensee and should be undertaken expeditiously. Any request for extension of special temporary authorities carries an increased burden with each subsequent request.

Therefore, requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Sincerely,

Charles N. Miller, Engineer  
Audio Division  
Media Bureau
