Program Test Authority

Dear Applicant:

The staff has under consideration the request for program test authority and the license application filed December 3, 2012 to cover permit BPH-20120113AEP. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the directional antenna.

A review of WFUN-FM's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BPH-20120113AEP, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on WFUN-FM's pending license renewal application. The effective radiated power is 10.5 kilowatts, and the transmitter power output 4.4 kilowatts.

Sincerely,

Edna V. Prado  
Supervisory Engineer  
Audio Division
