Re: IHR Educational Broadcasting
KCEO(AM), Vista, California
Facility ID Number: 67666
Construction Permit: BP-20040109AAF
as modified by BMP-20121016AAR
License File Number: BMML-20121016ADQ

Dear Mr. Kelly:

This is in reference to the above-captioned license application as amended on December 7, 2012, to cover construction permit BMP-20121016AAR and the request for program test authority for station KCEO(AM).

Authority is granted KCEO(AM) to conduct program tests of the daytime and nighttime antenna systems authorized in BMP-20121016AAR in accordance with Section 73.1620 of the Commission's Rules. KCEO(AM) shall operate on 1000 kHz with a nominal daytime power of 5.0 kilowatts and a nighttime nominal power of 0.9 kilowatts. Program tests are authorized with a daytime antenna input power of 5.4 kilowatts (antenna common point current of 10.39 amperes) and with a nighttime antenna input power of 0.972 kilowatts (antenna common point current of 4.41 amperes), and with the antenna monitor parameters shown on the application (FCC Form 302).

An amendment to the application must be filed to provide measurements showing the FIM-41 s/n 1655 is within 0.5% of the FIM-41 last calibrated in February 2012, and to specify the number of faces to each tower.

Further action on the license application will be withheld for thirty (30) days from the date of this letter in order to provide IHR Educational Broadcasting an opportunity to file a curative amendment. Failure to respond or file an amendment within this time period will result in the dismissal of the application pursuant to Section 73.3568 of the rules.

Sincerely,

Son Nguyen
Supervisory Engineer
