Re: Multicultural Radio Broadcasting Licensee, LLC

WLXE (AM), Rockville, Maryland Facility Identification Number: 54506 Special Temporary Authority (STA)

BESTA- 20121121AEZ

Dear Counsel:

This is in reference to the request filed November 21, 2012. Multicultural Radio Broadcasting Licensee, LLC (MRB) requests further extension of the STA granted on January 11, 2007, to operate Station WLXE with emergency antenna facilities pursuant to Section 73.1680. In support of the request, MRB states that it continues to search for a new transmitter site due to development which eliminates the option of restoring operations at the existing site.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WLXE may continue to operate during daytime hours with an alternate tower and during nighttime hours with an emergency nondirectional antenna and reduced power not to exceed 0.125 kilowatt. It will be necessary to further reduce power or cease operation if complaints of interference are received. MRB must use whatever means are necessary to protect workers and the public from

¹ WLXE is licensed for operation on 1600 kHz with 1 kilowatt daytime and 0.5 kilowatt nighttime, employing a directional antenna during nighttime hours only (DA-N-U).

exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on July 2, 2013.

Sincerely,

Joseph B. Szczesny, Engineer Audio Division
