Re: KCPL-LP Channel 52
Rapid City, SD
Facility ID No. 127551
BLTTL-20050729ABM

Dear Licensee:

This is with respect to the above-captioned low power television station. Section 312(g) of the Communications Act of 1934, as amended,¹ provides that:

If a broadcasting station fails to transmit broadcast signals for any consecutive 12-month period, then the station license granted for the operation of that broadcast station expires at the end of that period, notwithstanding any provision, term or condition of the license to the contrary . . .

Stations operating on out-of-core channels (channels 52 through 69), were required to cease their out-of-core operations by December 31, 2011.² In adopting this deadline, the Commission cautioned out-of-core licensees to be mindful of the automatic cancellation provision in Section 312(g) when constructing their authorized in-core facilities.³ Commission records show that the Licensee has not yet constructed its authorized in-core facility. Because the station has failed to transmit a broadcast signal since at least December 31, 2011, its license has expired pursuant to Section 312(g) of the Act.

In view of the foregoing, the license for the above-referenced low power television station and construction permit for an in-core facility ARE HEREBY CANCELLED and the call sign IS DELETED.

Sincerely,

Hossein Hashemzadeh
Deputy Chief, Video Division
Media Bureau

¹ 47 U.S.C. § 312(g).
