BLED-20130211ACE
Program Test Authority

Dear Applicant:

The staff has under consideration the request for program test authority and the license application filed February 11, 2013 to cover permit BNPED-20071017ADJ, as modified by permit BMPED-20111205AKB. The PTA request included an exhibit demonstrating compliance with the special operating condition regarding radiofrequency electromagnetic field strength calculations.

A review of KUWE's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BMPED-20111205AKB, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action during KUWE's upcoming license renewal cycle. The effective radiated power is 2.0 kilowatts, and the transmitter power output is 2.10 kilowatts.

Sincerely,

Edna V. Prado
Supervisory Engineer
