> Re: KSSU (FM), Durant, Oklahoma Southeastern Oklahoma State University Facility Identification Number: 61233 Special Temporary Authority BESTA-20130201ABH

Dear Counsel:

This is in reference to the request filed February 1, 2013, on behalf of Southeastern Oklahoma State University ("SOSU"). SOSU requests a second six month extension of the special temporary authority ("STA") granted on February 28, 2012, to operate Station KSSU from a site other than the licensed site.¹ In support of the request, SOSU states that the licensed tower was seriously damaged by an act of vandalism and must be dismantled. SOSU has been granted construction permit BPED-20120920ADW to permanently relocate the station, and is pursuing implementation of that facility.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

¹ KSSU is licensed for operation on Channel 220A (91.9 MHz) with effective radiated power of 1.5 kilowatts (H&V) and antenna height above average terrain of 104 meters.

Our review indicates that the licensee has made progress toward implementing its construction permit operation. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KSSU may continue to operate with the following facilities:

Geographic coordinates: Channel	34° 00′ 30″ N, 96° 22′ 30″ W (NAD 1927) 220 (91.9 MHz)
	0.44 kilowatt (H&V)
Effective radiated power:	$0.44 \text{ knowall}(\Pi \propto V)$
Antenna height:	
above ground:	36 meters
above mean sea level:	219 meters
above average terrain:	233 meters

SOSU must notify the Commission when licensed operation is restored. SOSU must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on August 26, 2013.

Sincerely,

De ? Zich

Dale Bickel Senior Engineer Audio Division Media Bureau
