In re: NEW(FM), Tucson, AZ
BNPFT-20130228ASA
Facility ID # 155925

Dear Applicant:

This refers to the above-captioned application for a new FM translator station in Tucson, Arizona.

Our review of the application has revealed that the proposal violates Sections 2.1.2 and 2.1.3 of Annex 1 of the Agreement Between the Government of the United States of America and the Government of the United Mexican States Relating to the FM Broadcasting Service in the Band 88-108 MHz.

Section 2.1.2 requires that the proposed 34 dB μ interfering contour not exceed 32 kilometers in the direction of the other country. The proposed facility's interfering contour will extend 51 kilometers. Furthermore, it requires that the ERP be limited to 50 watts in the direction of the other country. The application proposes an ERP of 200 watts in the 150, 180, and 210 degree azimuths.

Section 2.1.3 requires that the proposed 60 dB μ protected contour not exceed 8.7 kilometers in the direction of the other country. The proposed facility's protected contour will extend 10.4 kilometers.

Accordingly, Application BNPFT-20130228ASA IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
Deputy Chief
