Washington, D.C. 20554

Re: WCKS, LLC, Call Sign WCKS, Facility No. 63409, Fruithurst, Alabama,
Request for Cancellation of Construction Permit BPH-20100301ABW

Dear Mr. Bradshaw:

This letter, on behalf of WCKS, LLC, licensee of WCKS, is a request for cancellation of the above referenced construction permit. A copy of the construction permit is attached to this letter.

If there are any questions regarding this filing, please contact this office.

Respectfully submitted,

Audrey P. Rasmussen

Rodolfo F Bonacci
 Assistant Chief
 Audio Division
 Media Bureau

Facility ID 63409
 Call Sign WCKS
 Permit File Number BPH-20100301ABW

Grant Date March 31, 2010
 This permit expires 3 00 a m
 local time, 36 months after the
 grant date specified above

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules.

Commission rules which became effective on February 16, 1998, have a bearing on this construction permit. See Report & Order, Streamlining of Mass Media Applications, MM Docket No. 98-43, 13 FCC RCD 23056, Para 77-90 (November 25, 1998); 63 Fed Reg 70039 (December 18, 1998). Pursuant to these rules, this construction permit will be subject to automatic forfeiture unless construction is complete and an application for license to cover is filed prior to expiration. See Section 73.3598.

Equipment and program tests shall be conducted only pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.

Name of Permittee WCKS, LLC
 Station Location AL-FRUITHURST
 Frequency MHz: 102.7
 Channel 274
 Class A
 Hours of Operation Unlimited

Callsign WCKS

Permit No BPH-20100301ABW

Transmitter Type Accepted See Sections 73 1660, 73 1665 and 73 1670 of the Commission's Rules

Transmitter output power As required to achieve authorized ERP

Antenna type Directional

Antenna Coordinates North Latitude 33 deg 40 min 05 sec
 West Longitude 85 deg 17 min 09 sec

	Horizontally Polarized Antenna	Vertically Polarized Antenna
Effective radiated power in the Horizontal Plane kW	1.55	1.55
Height of radiation center above ground Meters	94	94
Height of radiation center above mean sea level Meters	527	527
Height of radiation center above average terrain Meters	198	198

Antenna structure registration number 1257136

Overall height of antenna structure above ground including obstruction lighting if any; see the registration for this antenna structure

Special operating conditions or restrictions

- 1 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines

- 2 ***** This is a Section 73 215 contour protection grant *****
 ***** as requested by this applicant *****

- 3 BEFORE PROGRAM TESTS ARE AUTHORIZED, permittee shall submit the results of a complete proof-of-performance to establish the horizontal plane radiation patterns for both the horizontally and vertically polarized radiation components. This proof-of-performance may be accomplished using the complete full size antenna, or individual bays therefrom, mounted on a supporting structure of identical dimensions and configuration as the proposed structure, including all braces, ladders, conduits, coaxial lines, and other appurtenances, or using a carefully manufactured scale model of the entire antenna, or individual bays therefrom, mounted on an equally scaled model of the proposed supporting structure, including all appurtenances. Engineering exhibits should include a description of the antenna testing facilities and equipment employed, including appropriate photographs or sketches and a description of the testing procedures, including scale factor, measurements frequency, and equipment calibration.

Callsign WCKS

Permit No BPH-20100301ABW

Special operating conditions or restrictions

- 4 BEFORE PROGRAM TESTS ARE AUTHORIZED, permittee shall submit an affidavit from a licensed surveyor to establish that the directional antenna has been oriented at the proper azimuth

- 5 BEFORE PROGRAM TESTS ARE AUTHORIZED, permittee/licensee shall submit an affidavit that the installation of the directional antenna system was overseen by a qualified engineer. This affidavit shall include a certification by the engineer that the antenna was installed pursuant to the manufacturer's instructions and list the qualifications of the certifying engineer

- 6 The relative field strength of neither the measured horizontally nor vertically polarized radiation component shall exceed at any azimuth the value indicated on the composite radiation pattern authorized by this construction permit

A relative field strength of 1.0 on the composite radiation pattern herein authorized corresponds to the following effective radiated power

1.55 kilowatts

Principal minima and their associated field strength limits

160 - 175 degrees True 0.225 kilowatt

*** END OF AUTHORIZATION ***
