Re: KRLY-LP; Alpine, CA
East County Broadcasting, Inc.
Facility ID # 124224
BPL-20130222ABR

Dear Applicant:

An engineering study of the above-captioned minor change application reveals that the proposed transmitter site fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807. Specifically, the site proposed is 34 kilometers from second-adjacent Class B license (BMLH-20050630AEK) for KLVN(FM), San Diego, CA. The required spacing pursuant to § 73.807 is 67 kilometers.¹

Furthermore, the application proposes a non-adjacent channel change. Pursuant to § 73.870(a)(1), changes to non-adjacent channels are only allowed upon a technical showing of reduced interference. KRLY-LP has not provided such showing.

In light of the above, application BPL-20130222ABR is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Edna V. Prado

cc: Charles R. Naftalin, Esq.

¹ KRLY-LP's application proposes to change operation from Channel 300 to Channel 295. However, the channel change will create a new short-spacing to KLVN.
