In re: WVRI(FM), Pavo, Georgia
Facility ID No. 122298
Educational Media Foundation
Request for Modification of
Waiver of 47 C.F.R. Section
73.1125 (Main Studio Rule)

Dear Mr. Oxenford:

Commission records indicate that on November 3, 2003, Educational Media Foundation ("EMF") was granted a waiver of the main studio rule, Section 73.1125, in order to operate WVRI(FM), Pavo, Georgia, as a satellite station of commonly owned noncommercial educational FM station, KLVR(FM), Santa Rosa, California.

On September 13, 2004, you filed a request to modify the WVRI(FM) main studio waiver to specify noncommercial educational station, KLRD(FM), Yucaipa, California, as the originating station in order to broadcast the Air-1 Radio Network that is originated by KLRD(FM). EMF's request IS GRANTED. However, EMF is reminded that the public inspection file for WVRI(FM) must now be maintained at the main studio of the new "parent" station, KLRD(FM), Yucaipa, California, and that the WVRI(FM) public inspection file must contain the quarterly issues and programs list for Pavo, Georgia.

Sincerely,

Peter H. Doyle, Chief
Audio Division
Media Bureau
