Program Test Authority

Dear Applicant:

This letter is in reference to WDXX's request for program test authority ("PTA") filed March 1, 2013 and the simultaneously filed application for license to cover Construction Permit BPH-20120727AHA. The PTA request included exhibits demonstrating compliance with the special operating conditions.

A review of WDXX's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BPH-20120727AHA, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on WDXX's license application. The maximum effective radiated power is 50 kilowatts (H&V) and the transmitter power output is 22 kilowatts.

Sincerely,

Rodolfo F. Bonacci  
Assistant Chief  
Audio Division
