Re: Radio Hawaii, Inc. (RHI)

KWAI (AM), Honolulu, Hawaii Facility Identification Number: 54613 Special Temporary Authority (STA)

BESTA-20130307AAY

## Dear Counsel:

This is in reference to the request filed March 7, 2013. RHI requests further extension of the STA granted on February 27, 2012, to operate Station KWAI with temporary facilities. In support of the request, RHI states that it is in the process of making ground system repairs in order to meet all construction permit conditions and file a license application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for STA IS HEREBY GRANTED. Station KWAI may operate with the following facilities, with reduced power:

Geographic coordinates

21° 19′ 27″ N, 157° 52′ 47″ W (NAD 1927)

Frequency
Hours of operation

1080 KHz

Unlimited

Operating power Antenna type

Not to exceed 5 kilowatts

Existing tower, non-directional

<sup>&</sup>lt;sup>1</sup> KWAI is licensed for operation on 1080 kHz with 5 kW daytime and nighttime, employing a non-directional antenna, and Construction Permit BP-20120306ABL authorizes relocation of the transmitter and a reduction in antenna height.

Radiator height Antenna efficiency Overall height ASRN 77.5° (59.8 meters) 298 mV/m/km/kW 61 meters 1213943

It will be necessary to further reduce power or cease operation if complaints of interference are received. RHI must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. Failure to file an acceptable FCC Form 302 license application to cover the permit before the expiration date shown below may result in a dismissal of any future STA request and cancellation of the original STA.

This authority expires on October 1, 2013.

Sincerely,

Joseph Szczesny, Engineer Audio Division
