In re: WLRH(FM), Huntsville, AL  
Facility ID No. 719  
Alabama Educational Television  
Commission  
BLED-20121016ADC  
Program Test Authority

Dear Applicant:

This letter is in reference to WLRH's request for program test authority ("PTA") filed October 16, 2012 and the simultaneously filed application for license to cover Construction Permit BPED-20090921ACS. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the directional antenna.

A review of WLRH's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BPED-20090921ACS, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on WLRH's license application. The maximum effective radiated power is 100 kilowatts (H&V) and the transmitter power output is 24 kilowatts.

Sincerely,

Rodolfo F. Bonacci  
Assistant Chief
