Washington, D.C. 20554

Dear Ms. Dortch:

On behalf of Entercom Norfolk License, LLC, licensee of WVKL(FM) (Facility Id. No. 4672) ("Station"), this letter serves to notify the Federal Communications Commission Station is no longer operating pursuant to special temporary authority ("STA") (a copy of the granted STA dated March 29, 2013 is attached) and is no longer operating at reduced power (a copy of letter notifying Commission Station of reduced power operation dated April 2, 2013 is attached).

The undersigned counsel is authorized to represent that neither the licensee nor any party holding an attributable interest in the licensee is subject to a denial of federal benefits under Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. §862.

If any information is desired in connection with this matter, please feel free to contact the undersigned. Kindly date stamp the enclosed copy of this letter acknowledging its receipt by your office and return it to me in the enclosed self-addressed stamped envelope.

Sincerely,

Carrie Ward

Enclosure

Re: WVKL(FM), Norfolk, VA
Entercom Norfolk License, LLC
Facility Identification Number: 4672
Special Temporary Authorization
BSTA-20130327ABL

Dear Ms. Ward:

This is in reference to the request filed March 27, 2013 for Entercom Norfolk License, LLC ("Entercom"). Entercom requests special temporary authority ("STA") to operate Station WVKL with temporary facilities.¹ WVKL's licensed facility is not operational due to damaged transmission line that requires replacement, which Entercom is actively pursuing. The equipment for the proposed temporary facility is already in place, being the licensed auxiliary facility for station WNVZ (FM), Norfolk, VA.²

Accordingly, the request for STA IS HEREBY GRANTED. Station WVKL may operate with the following facilities:

Geographic coordinates:	36° 50' 45" N, 76° 09' 51" W (NAD 1927)
Channel	239B (95.7 MHz)
Effective radiated power:	0.373 kilowatts (H&V)
Antenna height:	
above ground:	33 meters
above mean sea level:	39 meters
Above average terrain:	36meters

WVKL must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **June 29, 2013**.

¹ WVKL is licensed for operation on Channel 239B (95.7 MHz) with effective radiated power of 40 kilowatts (H&V) and an antenna height above average terrain of 268 meters.

² By e-mail received March 29, 2013, Entercom corrected the frequency of the STA operation from 104.5 MHz to WVKL's frequency of 95.7 MHz. This has been corrected in the database.

STA Advisory: Section 309(f) of the Communications Act of 1934, as amended, authorizes the Commission to grant STA in cases of "extraordinary circumstances requiring temporary authorizations in the public interest and when delay in the institution of the temporary operations would seriously prejudice the public interest." However, Section 309(f) is not a means by which a licensee/permittee may circumvent established processing procedures which require the filing of an application, nor is it a means by which a broadcaster may enhance his facility or make operation more convenient for the broadcaster. Stations operating with less than licensed facilities under temporary authorities can be viewed as receiving the benefit of a larger protection area than that in which they are currently providing service.

Accordingly, Special Temporary Authorities by nature are to be temporary and are not intended for extended use. Licensees of stations operating under temporary authorities are reminded that timely restoration of permanent facilities is the responsibility of the licensee and should be undertaken expeditiously. Any request for extension of special temporary authorities carries an increased burden with each subsequent request.

Therefore, requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Sincerely,

Dale Bickel
Senior Engineer

Re: Station, WVKL(FM), Norfolk, VA (Facility ID No. 4672)

Dear Ms. Dortch:

On behalf of Entercom Norfolk License, LLC (the "Licensee"), licensee of Station WVKL(FM), Norfolk, VA (Facility ID No. 4672) (the "Station"), this letter serves to notify the Commission pursuant to Section 73.1560(d) of the Commission's rules that the Station has been operating at reduced power since March 25, 2013 due to damage to the Station's transmission line associated with its antenna. On March 29, 2013, the Station was granted an STA to operate from the licensed auxiliary facilities of co-owned station, WNVZ(FM), Norfolk, VA (Facility ID No. 40755) (See File No. BSTA - 20130327ABL) (the "STA"). The Station will operate pursuant to the STA during certain times while repairs are being made to Station's licensed facilities. However, the Station will primarily operate at reduced power at its licensed site until repairs are completed. If the Station is unable to return to normal operations within 30 days of operation at reduced power, Station will submit a request for Special Temporary Authority pursuant to Section 73.1635 of the Commission's rules for additional time to complete the repairs.

The undersigned counsel is authorized to represent that neither the licensee nor any party holding an attributable interest in the licensee is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 USC Section 862.
