Program Test Authority

Dear Applicant:

This letter is in reference to WBTP's request for program test authority ("PTA") filed April 12, 2013 and the simultaneously filed application for license to cover Construction Permit BXPB-20120504AAU. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the directional antenna.

A review of WBTP's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BXPB-20120504AAU, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on WBTP's license application. The maximum effective radiated power is 40 kilowatts (H&V) and the transmitter power output is 18 kilowatts.

Sincerely,

Rodolfo F. Bonacci
