**Re: Notification of Return to Licensed Parameters
KUTY(AM), Palmdale, California (FIN-22011)**

Dear Ms Dortch:

On behalf of High Desert Broadcasting LLC ("High Desert"), licensee of KUTY(AM), Palmdale, California, this letter is to notify the Commission that KUTY(AM) has returned to normal operations consistent with its licensed parameters.

On April 5, 2013, High Desert notified the FCC that because of instability of some tubes in KUTY's transmitter, the station had to reduce its operating power from its licensed 5 kW to 3.5 kW. Replacement transmitter tubes have since been delivered and installed permitting the transmitter to return to its licensed operating power of 5 kW on both the daytime and nighttime patterns. The daytime and nighttime monitoring points are also within their required limits.

If there should be any questions regarding this matter, please contact the undersigned.

Very truly yours,

Alvin Souder
