Re: K219FJ (FX), Gleneden Beach, Oregon
Oregon Public Broadcasting
Facility Identification Number: 50615
Special Temporary Authority
BESTA-20130503AAD

Dear Counsel:

This is in reference to the request filed May 3, 2013, on behalf of Oregon Public Broadcasting (“OPB”). OPB requests a seventh extension of the special temporary authority (“STA”) granted on May 12, 2009, to operate FM Translator Station K219FJ with temporary facilities.¹ In support of this extension request, OPB states it is currently awaiting the processing of an application for a new channel (file no. BPFT-20121101AAT). The STA will permit continued operations pending completion of our review of that application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has been prevented from restoring licensed operation due to causes beyond its control and has taken all possible steps to expeditiously resolve the problem. Thus, extension of STA is warranted.

¹ K219FJ is licensed for operation on Channel 219D (91.7 MHz) with effective radiated power of 0.205 kilowatt (H&V) and antenna height above average terrain of 20 meters.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station K219FJ may continue to operate with the following facilities:

Geographic coordinates:	44° 53' 8" N, 124° 0' 51" W (NAD 1927)
Channel	219 (91.7 MHz)
Effective radiated power:	0.012 kilowatt (H&V)
Antenna height:	
above average terrain:	-1 meters
above mean sea level:	96 meters
above ground:	9 meters

OPB must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **November 9, 2013**.

Sincerely,

Dale Bickel
Senior Engineer
