Re: WNNL(FM), Fuquay-Varina, North Carolina  
Facility Identification No. 9728  
Radio One Licenses, LLC  
Request for Increased Digital Power  
Hybrid IBOC Digital Operation

Dear Ms. Harris:

This is in reference to the request filed January 9, 2013, on behalf of Radio One Licenses, LLC ("Radio One"). Radio One requests authority to operate Station WNNL(FM) with increased digital effective radiated power ("ERP") of -10 dBc<sup>1</sup>, pursuant to the Media Bureau's *Order* adopted January 27, 2010, in MM Docket No. 99-325.<sup>2</sup>

Our review indicates that the notification requirements of the *Order* have been satisfied, and that the proposed operation complies with the contour non-overlap and other technical requirements of the *Order*.

Accordingly, the request IS HEREBY GRANTED. Station WNNL(FM) may operate with increased digital ERP and transmitter power output ("TPO"), as follows:

Analog ERP:	7.9 kW (Max-DA, H&V)
Digital ERP:	0.79 kW (Max-DA, H&V)
Analog TPO:	5.4 kW
Digital TPO:	0.54 kW
Combined TPO:	5.94 kW

---

<sup>1</sup> decibels relative to analog carrier

<sup>2</sup> See *Digital Audio Broadcasting Systems And Their Impact on the Terrestrial Radio Broadcast Service*, Order, 25 FCC Red 1182 (2010) ("*Order*").

Radio One must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines; *See* 47 CFR § 1.1310. It may be necessary to reduce the power of the digital signal or cease hybrid operation if interference complaints are received. This authority may be modified or cancelled by the Commission without notice or right to hearing. This authority attaches to, and runs concurrently with, the main station license. Radio One must post a copy of this authority with the station license.

Sincerely,

Susan N. Crawford  
Assistant Chief  
Audio Division  
Media Bureau
