Re: KIOO (FM), Porterville, CA
Facility Identification Number: 7708
Momentum Broadcasting, LP
Special Temporary Authorization
BESTA-20130612ABM

Dear Counsel:

This is in reference to the request filed June 12, 2013, on behalf of Momentum Broadcasting, LP ("Momentum"). Momentum requests extension of the special temporary authority ("STA") granted December 18, 2013 to operate Station KIOO with emergency antenna facilities pursuant to Section 73.1680.¹ In support of the request, Momentum states that the station's tower was toppled by a construction vehicle. The emergency antenna is sited 40 feet west of the licensed site. Momentum filed for, and was granted (on June 13, 2013), construction permit BPH-20130509ACU for slightly modified facilities at the licensed transmitter site.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee is making substantial progress toward restoring permanent operation but that additional time is required for completion of the work. Thus, extension of STA is warranted. The request for STA extension IS HEREBY GRANTED. Station KIOO may operate from its licensed site with the following facilities:

¹ KIOO is licensed for operation on Channel 259B (99.7 MHz) with effective radiated power of 24 kilowatts (H&V) and antenna height above average terrain of 210 meters.

Channel 259 (99.7 MHz)
Effective radiated power: 10 kilowatts (H&V)
Antenna height:
 above ground: 25 meters
 above mean sea level: 372 meters
 Above average terrain: 203 meters
Latitude: 36 °06' 26 NL
Longitude: 119° 01' 45.5" WL

Momentum must notify the Commission when program test operations pursuant to its construction permit commence. Momentum must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **December 15, 2013**.

Sincerely,

Dale Bickel
Senior Engineer
