Program Test Authority

Dear Applicant:

The staff has under consideration the request for program test authority and the license application filed May 20, 2013 to cover permit BNPED-20071022AFB. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the directional antenna.

A review of KNSJ's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BNPED-20071022AFB, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on KNSJ's license application. The effective radiated power is 0.33 kilowatts, and the transmitter power output is 0.160 kilowatts.

Sincerely,

James D. Bradshaw
