Re: Midwest Communications, Inc. (MC)

WBOW (AM), Terre Haute, Indiana Facility Identification Number: 65242 Special Temporary Authority (STA)

BESTA - 20130625AAV

Dear Mr. Neely:

This is in reference to the request filed on June 25, 2013. MC requests further extension of the original STA granted on May 22, 2012, to operate Station WBOW with temporary facilities. In support of the request, MC states that it intends to file an FCC Form 301 construction permit application to change site in the near future due to loss of the licensed site.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for STA IS HEREBY GRANTED. Station WBOW may continue to operate with the following facilities:

Geographic coordinates

39° 27′ 22″ N, 87° 28′ 50″ W (NAD 1927)

Frequency
Hours of operation

1300 KHz Unlimited

Operating power

Not to exceed 0.5 kW day, 0.075 kW night

Antenna type
Antenna efficiency

Inverted V wire dipole 282 mV/m/km/kW

Overall height

55 meters

It will be necessary to further reduce power or cease operation if complaints of interference are received. It is anticipated that an application for construction permit will be filed prior to the expiration

¹ WBOW is licensed for ND operation on 1300 kHz with 0.5 kW day and 0.075 kW night.

date below. MC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on January 17, 2014.

Sincerely,

Joseph Szczesny, Engineer Audio Division
