Program Test Authority

Dear Applicant:

This letter is in reference to WWKA's request for program test authority ("PTA") filed June 21, 2013 and the simultaneously filed application for license to cover Construction Permit BXPB-20110112ADA. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the spurious emissions requirements.

A review of WWKA's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BXPB-20110112ADA, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on WWKA's license application. The maximum effective radiated power is 100 kilowatts (H&V) and the transmitter power output is 29 kilowatts.

Sincerely,

Rodolfo F. Bonacci
Assistant Chief
