Re: LBI Radio License LLC  
KHJ(AM), Los Angeles, CA  
Facility ID Number: 37224  
Construction Permit: BP-20120504AAF  
License Application: BMML-20130719CZJ  
Program Test Authority

Dear Ms. Sarver:

This is in reference to the above-captioned license application and your request for program test authority for station KHJ(AM), Los Angeles, California.

Authority is granted KHJ(AM) to conduct program test in accordance with Construction Permit BP-20120504AAF and Section 73.1620 of the Commission's rules on 930 kHz with a daytime nominal power of 5.0 kilowatts and a nighttime nominal power of 5.0 kilowatts. Program tests are authorized with a daytime antenna input power of 5.0 kilowatts (antenna current of 10.0 amperes) and a nighttime antenna input power of 5.4 kilowatts (common point current of 10.4 amperes), and with the antenna monitor parameters shown on Form 302-AM.

A preliminary engineering study reveals that the KHJ(AM) nighttime intermodulation product observations and analysis involving KYPA(AM) and KBLA(AM) must be submitted to show that the filtering equipment is functioning satisfactorily as required by Condition #4.

This program test authority will expire on **November 5, 2013**.

Further action on the subject application will be withheld for thirty (30) days from the date of this letter in order to provide LBI Radio License LLC an opportunity to file a curative amendment. Failure to respond or file an amendment within this time period may result in the dismissal of the application pursuant to Section 73.3568 of the Commission's rules.

Sincerely,

Son Nguyen,  
Supervisory Engineer  
Audio Division  
Media Bureau
