Re: KSSU (FM), Durant, Oklahoma
Southeastern Oklahoma State University
Facility Identification Number: 61233
Special Temporary Authority
BESTA-20130819ABL

Dear Counsel:

This is in reference to the request filed August 19, 2013, on behalf of Southeastern Oklahoma State University ("SOSU"). SOSU requests a third extension of the special temporary authority ("STA") granted on February 28, 2012, to operate Station KSSU from a site other than the licensed site.¹ SOSU states that it is in the final stages of construction of the permanent facility, and requests a 90 day extension to allow for completion of the licensing process.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

¹ KSSU is licensed for operation on Channel 220A (91.9 MHz) with effective radiated power of 1.5 kilowatts (H&V) and antenna height above average terrain of 104 meters.

Our review indicates that the licensee has made progress toward implementing its construction permit operation. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KSSU may continue to operate with the following facilities:

Geographic coordinates:	34° 00' 30" N, 96° 22' 30" W (NAD 1927)
Channel	220 (91.9 MHz)
Effective radiated power:	0.44 kilowatt (H&V)
Antenna height:	
above ground:	36 meters
above mean sea level:	219 meters
above average terrain:	233 meters

SOSU must notify the Commission when licensed operation is restored. SOSU must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **November 26, 2013**.

Sincerely,

Dale Bickel
