In re: NEW(FM), South Padre Island, TX
BNPFT-20130826AGH
Facility ID # 142717

Dear Applicant:

This refers to the above-captioned application for a new FM translator station in South Padre Island, Texas.

Our review of the application has revealed that the proposal violates Sections 2.1.1 of the Agreement Between the Government of the United States of America and the Government of the United Mexican States Relating to the FM Broadcasting Service in the Band 88-108 MHz. Section 2.1.1 requires that the proposed 100 dB μ interfering contour can not overlap with the 60 dB μ protected contour of Mexican FM allotments and assignments. The proposed translator is approximately 15.0 kilometers from a Mexican Class A for Playa Washington, MX on Channel 283. The Mexican station's contour extends 24 kilometers, therefore the interfering contour of the proposed facility overlaps with the protected contour of the Mexican station or allotment.

Accordingly, Application BNPFT-20130826AGH IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

for James D. Bradshaw
Deputy Chief
