Subject: Resumption of Operations at Licensed Parameters - WPAC and WYSX
Date: Friday, October 18, 2013 10:11:07 AM

Dear Mr. Bickel,

Special Temporary Authority was granted to two stations licensed to Stephens Media Group – Ogdensburg, LLC, WPAC(FM), Ogdensburg, New York (77827), and WYSX(FM) (49708), Morristown, New York, due to a lightning strike that destroyed a great deal of equipment. WPAC was operating pursuant to an STA that was extended by a letter signed by you and dated September 11, 2013 (BESTA-20130816AAN) and WYSX was operating pursuant to an STA granted by means of a letter signed by you and dated February 20, 2013. An application to extend the WYSX STA was filed on July 24 (BESTA-20130724ADJ), but was not acted upon, to my knowledge. This is written to notify the Commission that both stations have resumed licensed operation, and did so on October 11, 2013.

Please let me know if this letter is sufficient to constitute notice of the resumption of licensed operation for both stations.

Regards,

Russ Powell

Attorney for Stephens Media Group – Ogdensburg, LLC
