Re: Actualidad 1040AM Licensee, LLC
WLVJ(AM), Boynton Beach, FL
Facility Identification Number: 4341
Special Temporary Authority
BESTA-20130926AZD

Dear Mr. Liberman:

This is in reference to the request filed September 26, 2013, on behalf of Actualidad 1040AM Licensee, LLC ("Actualidad"). Actualidad requests extension of special temporary authority ("STA") granted on April 3, 2013, to operate with reduced power or with parameters at variance from licensed tolerances while maintaining monitoring point field strengths within licensed limits pursuant to Section 73.1615 of the Commission's Rules.¹ In support of the request, Actualidad states that due to excessive rains in south Florida, and the need for certain repairs and parts that are due to be completed next week. The period of time required for such operations at variance is expected to continue for approximately 90 additional days at which time WLVJ expects to file its form 302-AM using the Method of Moments procedure.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to

¹ WLVJ(AM) is licensed for operation on 1040 kHz with 25 kilowatts daytime and 1.1 kilowatts nighttime, employing different directional antenna patterns during daytime and nighttime hours (DA-2-U).

expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WLVJ(AM) may operate with parameters at variance from licensed values and/or reduced power while maintaining monitor points within licensed limits. Operation during daytime hours with a nondirectional antenna and reduced power not to exceed 6.25 kilowatts and operation during nighttime hours with a nondirectional antenna and reduced power not to exceed 0.275 kilowatts is authorized. It will be necessary to further reduce power or cease operation if complaints of interference are received. Actualidad must notify the Commission when licensed operation is restored.² Actualidad must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **March 30, 2014**.

Sincerely,

A handwritten signature in blue ink, appearing to read "JKong", is positioned above the typed name.
