> Re: WVVS-FM, Valdosta, Georgia Valdosta State University Facility Identification Number: 69649 Special Temporary Authority BESTA-20130919AEM

Dear Counsel:

This is in reference to the request filed September 19, 2013, on behalf of Valdosta State University ("VSU"). VSU requests a third extension of the special temporary authority ("STA") granted November 14, 2008 to continue operation of Station WVVS-FM with temporary facilities.¹

VSU amply explains the circumstances that prevented the licensee from restoring licensed operation, and its efforts to restore permanent operation. Accordingly, the STA extension IS GRANTED. Station WVVS-FM may continue to operate with the following temporary facilities:

Geographic coordinates:	30° 50′ 50″ N, 83° 17′ 36″ W (NAD 1927)
Channel	215 (90.9 MHz)
Effective radiated power:	0.01 kilowatt (H&V)
Antenna type:	Nondirectional
Antenna height:	
above ground:	10 meters
above mean sea level:	68 meters
Above average terrain:	11 meters

VSU must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

¹ WVVS-FM is licensed for operation on Channel 215A (90.9 MHz) with effective radiated power of 5.3 kilowatts (H only) and antenna height above average terrain of 21 meters.

This authority expires on May 5, 2014.

Sincerely,

2 Bich 9

Dale Bickel Senior Engineer Audio Division Media Bureau
