Re: WPST (FM), Trenton, NJ
Connoisseur Media Licenses, LLC
Facility Identification Number: 25013
Special Temporary Authority (STA)
BSTA-20131031AGR

Dear Counsel:

This is in reference to the request filed October 31, 2013, on behalf of Connoisseur Media Licenses, LLC ("CML"). CML explains that a lightning strike on October 29 damaged the station's antenna and knocked the station off the air. The station has since been able to return to the air with an emergency "loaner" antenna at reduced power and antenna height, pursuant to Section 73.1680 of the Commission's rules. CML requests an STA to continue such operation while the main antenna is being rebuilt.

Section 73.1680 of the Commission's rules provides for operation with emergency antenna facilities following damage to authorized antenna systems, provided that an informal request for continued use of an emergency antenna is filed with the Commission within 24 hours. In particular, Section 73.1680(b)(2) provides that FM and TV stations may erect any suitable radiator, or use operable sections of the authorized antenna(s) as an emergency antenna.

Accordingly, the request for STA IS HEREBY GRANTED. Station WPST may operate from its licensed site with the following facilities:

Channel	233B (94.5 MHz)
Effective radiated power:	14 kilowatts (H&V)
Antenna height:	
above ground:	126 meters
above mean sea level:	160 meters
Above average terrain:	130 meters

CLM must notify the Commission when licensed operation is restored. CLM must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **May 6, 2014**.

Sincerely,

A handwritten signature in black ink, appearing to read "Dale Bickel". The signature is fluid and cursive, with the first name "Dale" and last name "Bickel" clearly distinguishable.

Dale Bickel
