Re: K211FN (FX), Norfolk, NE
Educational Media Foundation
Facility Identification Number: 91450
Special Temporary Authority
BSTA-20131022ADR

Dear Counsel:

This is in reference to the request filed October 22, 2013, on behalf of Educational Media Foundation ("EMF"). EMF requests special temporary authority ("STA") to operate translator K211FN with its licensed facilities but with a replacement antenna of a different type and model, following failure of the licensed nondirectional antenna. EMF expects to file a minor change application soon to cover the new antenna.

Unlike regular FM broadcast stations, FM translators are required to submit a construction permit application for any change in antenna. *See* 47 CFR Sections 74.1251(a) and (b). The need for the STA will be eliminated upon grant of the expected minor change application.

An STA will permit the licensee to restore service immediately while the minor change application is being reviewed. Accordingly, STA IS GRANTED for a period of 180 days; translator K211FN may commence operations in accordance with license BLFT-20110801AAM but with the specified replacement antenna. We expect this period will provide ample time for the filing and processing of the requested application. Please note that the grant of STA does not imply that any minor change application will be acceptable for filing. EMF must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **May 20, 2014**. We anticipate that the required minor change application to cover the replacement antenna will be filed by December 21, 2013.

Sincerely,

Dale Bickel
