BPED-20131025AGI

Dear Applicant:

The staff has under consideration the above-captioned minor change non-commercial educational construction permit application filed to modify the broadcast facilities of WHPR-FM.

An engineering review of the application reveals that it is in violation of 47 C.F.R. Section 73.509(b) with respect to the first adjacent Class A license (BLED-20120605ABF) of FM Station, WDTE(FM), Grosse Point Shores, Michigan. Specifically, the application's proposed interfering contour (54 dBu) would cause prohibited overlap to the protected contour (60 dBu) of WDTE by approximately 1 kilometer between the azimuths from 76°T to 146°T. This constitutes an acceptance defect.

Accordingly, in light of the above, application BPED-20131025AGI, being unacceptable for filing, IS HEREBY DISMISSED. This action is taken pursuant to 47 CFR Section 0.283.

Sincerely,

Rodolfo F. Bonacci
