Mr. Paul Regier 2906 E. Randolph Enid, OK 73701

> Re: K253BC (FX), Enid, OK Paul W. and Patsy Regier Facility Identification Number: 51936 Special Temporary Authority BSTA-20131118BDI

Dear Mr. Regier:

This is in reference to the request filed November 18, 2013, on behalf of Paul W. and Patsy Regier ("Regier"). Regier requests an extension of the May 23, 2013 special temporary authority ("STA") to continue operating FM translator K253BC with temporary facilities.¹ Regier restates that K253BC lost its licensed site, and adds that the licensee filed a construction permit application on November 4, 2013 (file no. BPFT-20131104AUT) that is awaiting review by the staff.

We find that extension of the STA is warranted, and the STA extension IS HEREBY GRANTED. Station K253BC may continue to operate with the following facilities:

Geographic coordinates:	36° 23′ 53.7″ N, 97° 50′ 18.5″ W (NAD 1927) 2906 E. Randolph, Enid, Oklahoma
Channel	253 (98.5 MHz)
Effective radiated power:	0.250 kilowatts (H&V)
Antenna height:	
above average terrain:	28 meters
above mean sea level:	396 meters
above ground:	24 meters

Regier must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

¹ K263BC is licensed for operation on Channel 253A (98.5 MHz) with effective radiated power of 0.25 kilowatts (H&V) and an antenna height above average terrain of 78.5 meters.

This authority expires on May 26, 2014.

Sincerely,

3icht ~

Dale Bickel Senior Engineer Audio Division Media Bureau
