File no.: BPDTL-20131202BAN
Facility Id No.: 168482

Dear Applicant:

Within 30 days from the date of this letter, file an amendment to resolve the deficiency that was discovered during the initial review of your application. Amendments must be filed electronically. Failure to amend your application will result in the dismissal of the application.

Specifically, The ASRN number 1224225 as indicated in the above referenced construction permit shows the tower height is 312 meters. The ASR registration search results show the tower height is 310.6 meters. The difference of 1.4 meters represents a proposed tower height increase which will require notification for approval to the FAA and re-registration of the tower.

Sincerely
