File No. BNPL-20131114BUA

Dear Applicant:

The staff has under consideration the above-captioned application for a new low power FM (LPFM) station.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807. Specifically, the site proposed is located: 13.8 kilometers from authorized translator W283BA (BPFT-20130514AAN) on channel 283D in Selden NY; 110.4 kilometers from the licensed facility of WSPK (BLH-19840802CR) on channel 284B in Poughkeepsie, NY. The required spacings pursuant to § 73.807 are 15 and 112 kilometers respectively. The application fails to address these defects.

Accordingly, in light of the above, application BNPL-20131114BUA is unacceptable for filing and IS **HEREBY DISMISSED**. This action is taken pursuant to 47 C.F.R. § 0.283 and 73.870(c).<sup>1</sup>

Sincerely,

James D. Bradshaw  
Deputy Chief  
Audio Division
