INFORMAL OBJECTION

12/12/13

Against grant of new LPFM radio station
Facility ID# 197699
File # BNPL – 20131115AUQ
CDBS Application ID # 1596118

Received & Inspected

DEC 23 2013

FCC Mail Room

Gentlemen:

Hammock Educational and Environmental Community Services (applicant) has falsely certified that they are in compliance with multiple and cross-ownership limits for LPFM stations, by answering “yes” to Section 2 (legal) Questions 5A, and 5B.

The applicant again falsely certifies itself by answering “yes” to Section 3, (point system factors) question 5. (diversity of ownership) By answering this question falsely, the applicant claimed a “point” that they do not qualify for.

The application instructions clearly state that “No” is the required answer to all three of these questions, as the applicant already owns a full-power FM station. (WNSS-FM, Palm Coast, FL)

Even though the applicant states (in exhibit 4) that it “will divest their interest in WNSS(FM) Palm Coast, FL.....prior to commencing operation of the station”, this does not justify false certification occurring three times in one application. This application contains false statements and is misleading at the very least. In the interest of fairness to all LPFM applicants, it is requested that this application be dealt with accordingly, and as a minimum action, be immediately dismissed.

Cordially,

Ronald L. Kocher, 36 Faith Lane, Palm Coast, FL 32137 386 – 627 – 9330
