Re: Clear Channel Broadcasting Licenses, Inc. (CCBL)
WIOD(AM), Miami, Florida
Facility Identification Number: 14242
Special Temporary Authority (STA)
BESTA-20131212ABM

Dear Ms. Sarver:

This is in reference to the request filed on December 12, 2013. CCBL requests further extension of the STA granted on December 12, 2012, for operation with 10 kW to overcome Cuban interference.¹ In support of the request, CCBL states the Cuban interference continues as it has done since 1981.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WIOD may continue to operate with increased power of 10 kW using the directional antenna specifications given in BZ-20040227ACD.² It will be necessary to further reduce power or cease operation if complaints of interference are received. CCBL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commissions exposure guidelines. See 47 CFR § 1.1310. Station WIOD must resume licensed operating parameters (per BZ-19901121AE) if the Cuban interference ceases.

This authority expires on **July 6, 2014**.

Sincerely,

Joseph Szczesny, Engineer
Audio Division
Media Bureau

cc: Robert H. Walls, GC, CCBL

¹ WIOD is licensed for directional operation on 610 kHz with 5 kW day and nighttime.

² BZ-20040227ACD was granted on May 24, 2004, for modification of the directional antenna specifications employed for the STA, and the STA was modified by Commission letter dated May 24, 2004, to specify operation with the revised directional antenna specifications (modification incorporated into authorization issued herein).
