Al, normally it's just an informal letter through the Office of the Secretary.
But I can use this e-mail as notification.
Thanks, Dale Bickel dale.bickel@fcc.gov

Subject: STA back to full power notification

Hi Rudy:

We have been operating our station KRGM Marshall, MN under an STA to be at reduced power. We just put it back to full power 2/1/2014, the day the STA expired. It's an engineering STA. I don't see an electronic filing to notify the FCC we're back at full operating parameters. Does this mean a notification is not needed?

Please advise
