Dear Applicant::

This is in regard to the above- referenced applications, seeking to extend the above digital construction permits facilities. Our records indicate that the digital construction permits expired on December 13, 2013. Because neither an application for license to cover nor application for extension of construction permit was filed on or before the expiration date, the construction permits expired, were forfeited, and cannot be extended. *See* 47 C.F.R. § 74.788(a) and (e). Therefore, your applications for extension of digital construction permits are DISMISSED.

Sincerely,

Hossein Hashemzadeh
Deputy Chief, Video Division
