Program Test Authority

Dear Applicant:

This letter is in reference to WECQ's request for program test authority ("PTA") filed January 14, 2014 and the simultaneously filed application for license to cover Construction Permit BPH-20130703AAO, as modified by Construction Permit BMPH-20131119ABH. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the directional antenna.

A review of WECQ's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BMPH-20131119ABH, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on WECQ's license application. The maximum effective radiated power is 19 kilowatts (H&V) and the transmitter power output is 6.1 kilowatts.

Sincerely,
