Dale,

This is just to make sure that you were informed that KABN-FM was returned to service under the station you granted. The resumption was accomplished on March 24, 2014 and a notice was timely filed in CDBS as required. The return to service was done at the direction of Wolfgang Kurtz in his representative capacity as the president of AERS, and was done by the undersigned at the licensed location. The station continues to be on the air.

Thank you for your assistance.

Charles Dunham
