Subject: RE: Engineering STA

Dear Mr. Bickel:

This e-mail is in regards to **BSTA - 20130919AAA**. My lawyer tells me there is no form for filing that we have returned to full power and that we must write the FCC a letter. We wish to inform the FCC that repairs have been completed on KSDAS-FM's transmitter as of 3/7/2014 and we are now broadcasting at 3800 KW which is 100% of our authorized ERP.

Please do inform me if this e-mail is adequate or if I should submit a letter in writing.

Sincerely,

Matthew Dodd
