Attention: Audio Division, Media Bureau

Dear Ms. Dortch:

On behalf of Cornell Radio Guild, Inc., this is to give notice, pursuant to Section 73.1560(d) of the Commission's Rules, that Station WVBR-FM has been operating at less than 80% of authorized effective radiated power since April 28, 2013. The cause is a transmitter malfunction which cannot be repaired at the transmitter site. The malfunctioning equipment has been sent off-site for repair.

The station is currently operating at an effective radiated power of approximately 50 watts.

If repairs have not been completed within 30 days, special temporary authority will be requested to continue operation at reduced power.

Marlene H. Dortch, Secretary
