Re: K206CF (FX), Austin, TX  
Calvary Chapel of Twin Falls  
Facility Identification Number: 92021  
Special Temporary Authority  
BESTA-20140320ACU

Dear Counsel:

This is in reference to the request filed March 20, 2014, on behalf of Calvary Chapel of Twin Falls ("CCTF"). CCTF requests an extension of the special temporary authority ("STA") granted July 9, 2013 to operate station K206CF with reduced power to address interference complaints. CCTF has filed construction permit application BMPFT-20130923AKJ for a new channel, but that application has been opposed and remains under review.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

We conclude that the licensee's request satisfies these criteria. Accordingly, the request for extension of STA IS HEREBY GRANTED. K206CF may continue to operate at reduced power. CCTF remains responsible for resolving any interference complaints caused by this operation. CCTF must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

**This authority expires on September 29, 2014.**

Sincerely,

A handwritten signature in black ink, appearing to read "Dale Bickel", written in a cursive style.

Dale Bickel,  
Senior Engineer
