Request for Program Test Authority

Dear Permittee:

This letter is in reference to KEGH's request for program test authority ("PTA") filed February 24, 2014 and the simultaneously filed application for license to cover Construction Permit BPH-20080328AAL. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the FCC radiofrequency electromagnetic field exposure guidelines.

A review of KEGH's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BPH-20080328AAL, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on KEGH's license application. The maximum effective radiated power is 89 kilowatts (Horizontal only) and the transmitter power output is 7.8 kilowatts.

Sincerely,

Rodolfo F. Bonacci
Assistant Chief
