Dear Licensee:

This is in response to your request for special temporary authority (STA) to operate a digital facility for station KSBI(TV). Specifically, you propose to continue operating on channel 51 for a two week period immediately following commencement of program test on your new channel 23. You indicate that this will afford KSBI(TV) the ability to inform its viewers of the current channel change and the actions necessary to continue viewing its signal.

After a thorough review of your technical specifications, we are persuaded that no interference is likely to occur from the proposed operation. If problems do arise, we expect them to be solved expeditiously and the Bureau reserves the right to require termination of the operation. We therefore conclude that the public interest would be served by the grant of this request.

With respect to radio frequency radiation (RFR), we expect compliance with Section 1.1307(b) of the Commission's Rules to be achieved.

Accordingly, the request for special temporary authority IS GRANTED and authority expires on June 5, 2014. If appropriate, a timely renewal request must be filed before the end of this period.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".
