Re: WWOZ(FM), New Orleans, LA  
Friends of WWOZ, Inc.  
Facility Id. No. 22659  
Notification of Reduced Power Operation

Dear Ms. Dortch:

On behalf of Friends of WWOZ, Inc., licensee of WWOZ(FM), New Orleans, Louisiana, I am hereby notifying the Commission pursuant to Section 73.1560(d) of the Commission's rules that WWOZ(FM) is operating at reduced power.

The reduced power operation has become necessary because the sprinkler system in the room housing the WWOZ(FM) transmitter activated, with the result that the station transmitter suffered significant damage that is preventing it from operating. The station has temporarily installed a backup transmitter, but that transmitter generates only approximately 4,000 watts. As a result, the station is operating at significantly less than the 100 kW ERP for which the station is currently licensed.

In the event that such reduced power operation prevents restoration of authorized power within thirty (30) days, the requisite request for special temporary authority will be submitted.

If there are any questions concerning this notification, please contact the undersigned directly.

Sincerely,

  
John M. Pelkey
