Re: WADB(AM), Asbury Park, NJ
Facility Identification Number: 14895
Townsquare Media Monmouth-Ocean License, LLC
Special Temporary Authorization (STA)
BESTA- 20140421ADJ

Dear Mr. Liberman:

This is in reference to the request filed on April 21, 2014. Townsquare Media Monmouth-Ocean License, LLC (TMMO) requests an extension of the STA granted on November 12, 2013, and modified on December 24, 2013, pursuant to Section 73.1635 of the Commission's Rules to operate station WADB(AM) with parameters at variance and/or reduced power due to work on and nearby the towers.¹ In support of the request, TMMO states that the additional adjustments need to be made over the next few months to resolve low monitor point readings.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station

¹ WADB(AM) is licensed for directional operation on 1310 kHz with 2.5 kW day and 1 kW night.

WADB(AM) may operate during daytime and nighttime hours with parameters at variance from licensed values and/or reduced power while maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. TMMO must notify the Commission when licensed operation is restored.² TMMO must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. We anticipate that TMMO will file an FCC Form 302 application to verify any operating parameter changes before the expiration date shown below.

This authority expires on **August 20, 2014**.

Sincerely,

Joseph Szczesny, Engineer
Audio Division
Media Bureau
