Albuquerque NM 87197

I was recently made aware of a pending sale on a Translator. The Translator is K290AY in Ruidoso. This translator was actually donated to me in 2007. I am enclosing an agreement letter signed by both parties. We put it on the air and still intend to use it.

The current sale is from Bernie Woods (the party that donated it to me) and Walton Broadcasting.

I tried to file for renewal and update the new owners name but found out that a representative of Bernie's had done it before I could. There was nothing I could do because the electronic filing information I was given had been changed. I contacted the representative that did the filing and explained that it was donated and we did intend to use it.

At this point I'm not sure what to do. I filed a petition to deny electronically. I am not very good on the computer but did what I thought was best.

I feel like it is as if Bernie Woods donated a pair of pants to goodwill and then decided he wanted them back once someone offered him money for them.

We would like to keep of the translator. Please help me as I am lost as to what to do.
